## PROFESSIONAL SUMMARY

Front-End Web Developer with a Software Engineering degree and hands on experience building responsive web applications using React and modern JavaScript. Brings strong problem solving skills and attention to detail developed through professional work in a fast paced, documentation heavy environment. Eager to contribute to a development team and deliver high quality user interfaces.

## TECHNICAL SKILLS

| | |
|---|---|
| **Frontend** | HTML5 · CSS3 · JavaScript (ES6+) · React |
| **Tools & Version Control** | Git · GitHub · VS Code · npm |
| **backend** | Node.js · Supabase |
| **Soft Skills** | Problem-Solving · Communication · Leadership · Teamwork |

## PROJECTS

**E-Commerce Store** — *React · TypeScript · CSS* *github.com/anas-khashfeh*
Full featured shopping application with product listing, category filtering, shopping cart with persistent state, and responsive design. Built with React and TypeScript for type safe component architecture.

**Weather Dashboard** — *JavaScript · REST API · CSS* *github.com/anas-khashfeh*
Real time weather application that fetches live data from the OpenWeather API. Displays current conditions, temperature, humidity, and forecasts for any searched city.

**Personal Portfolio Website** — *JavaScript · REST · CSS · SUPABASE* *github.com/anas-khashfeh*
Developed a responsive portfolio website to showcase my projects and skills . Built an admin dashboard for content management (projects and skills) . Implemented backend functionality using Supabase for database and authentication

## WORK EXPERIENCE

**Ships Agent** | **Asra Shipping Agency** *2023 – 2026*

- Coordinated arrival and departure procedures for international vessels, managing precise documentation under strict deadlines
- Communicated daily with captains and port authorities bridging language and process gaps effectively
- Managed end to end administrative workflows: clearance papers, customs forms, and official port filings
- Demonstrated reliability, attention to detail, and composure under pressure in a high stakes logistics environment

## EDUCATION

**B.Sc. Information Technology — Software Engineering** | **Wadi International University** *2019 – 2024*

- Graduated with a focus on software engineering principles and web development
- Studied data structures, algorithms, databases, and object oriented programming

## LANGUAGES

Arabic — Native

English — B2 (Upper Intermediate)
